University Senate Nomination and Elections Committee

Annual Report, 2013-2014

Members: Galina Bakhtiarova, DL Stephenson, Pete Algarin

The University Senate Nominations and Elections Committee held two elections during the 2013-2014 academic year. The whole process including nomination via willingness to serve forms and elections was conducted online. This new electronic process worked well.

As of September 2013, there were 20 senate committee vacancies. In total, three ballots were generated for this election: a preliminary, a final, and a run-off. 11 vacancies were filled via election. 9 vacancies remained after the election.

As of February 2014, there were 48 senate committee vacancies. In total, three ballots were generated for this election: a preliminary, a final, and a run-off. 45 were filled via election. 3 seats remain unfilled as of April 2014.

Many thanks to Thomas Badura and Richard Corzo, et al. in IT&I.

Respectfully submitted,

Galina Bakhtiarova, Chair
