Faculty Willingness to Serve on a Committee to Review/Update the Banner CAPP Advisement Module

CAPP is the automated degree audit system within Banner that is used by students, faculty, advisement staff, and others for student advisement purposes. The current version of Banner CAPP implemented at the WestConn has not been maintained to properly reflect all the academic programs’ degree and course requirements. Because of this the University is undertaking steps to evaluate the current status of Banner CAAP and bring it up to date. The University has requested that Ellucian (parent company of Banner) conduct CAPP training and assist with the evaluation of the current setup to determine next steps. After the training and evaluation of CAPP, steps will be taken to either update the current setup or, if needed, to rebuild the functionality of CAPP. As we undertake this initiative the Senate is seeking faculty who wish to work on this initiative. Work on this project will begin during the Spring 2014 semester and will likely continue for approximately 12 months. Anyone needing further information on this project can contact Chuck Spiridon at 203-837-8000.
