In the April 2011 meeting of the Committee on General Education a motion was approved to change the Humanities/Western History designation to simply Humanities/History. In alignment with that the following cover sheet has been updated to reflect that change.

GENERAL EDUCATION COMMITTEE

INTENT TO INCLUDE A COURSE IN THE GENERAL EDUCATION CURRICULUM

Please check the area proposed and attach course proposal and rationale for inclusion

☐ Communication Skills: This course fulfills a communication skills requirement.

Humanities (Seven areas)

☐ Fine and Applied Arts: This course contributes to the understanding of the processes of creation in the fine and performing arts, and/or the appreciation of methods of evaluating the arts.

☐ Communication: This course contributes to the understanding of expression, relational communication, media appreciation/criticism, or communication and social interaction.

☐ World Languages and Literature: This course involves learning another language or reading literature and writing in another language.

☐ Humanistic Studies: This course contributes to the understanding of the philosophy and human activities in the arts, society, morality, or other aspects of philosophy and the human condition.

☐ Literature: This course involves substantial reading and analysis of texts.

☐ Philosophy: This course contributes to the understanding of philosophy, including its history, logic, critical reasoning, ethical issues, or religion.

☐ Western History: This course contributes to the understanding of the history of Europe, the United States, African-Americans, or the major religions from these regions.

☐ History: This course contributes to the familiarity with basic historical content in key periods in history across the world.

Social and Behavioral Sciences (Three areas)

☐ Non-Western Cultures: Courses in this category introduce students to cultural norms and patterns of civilizations associated with Africa, Asia, Latin America, the Middle East, Native America, and elsewhere, alternative to those of the Greco-Roman and European traditions.

☐ Psychology: This course contributes to the understanding of the methods and content of the discipline of psychology.

☐ Social Sciences: This course contributes to the understanding of anthropology, economics, geography, political science or sociology.

Natural Sciences, Mathematics and Computer Science

☐ Lab Science: This is a course in a physical or natural science which includes a laboratory experience.

☐ Mathematics: This course contributes to the understanding of mathematics at the college level.

☐ Computer Science: This course involves computer concepts, computer principles and algorithmic processes; their design and use in problem-solving; their application; and their impact on society.

Physical Education

☐ Health & Physical Exercise: This course includes a physical activity in recreation or sports and/or contribute to one's physical well being.
