Education Databases

Databases: Education & Ed Psychology

Be sure to use the "EBSCO Combined Databases" option if you want to search more than one education database at the same time.

- Academic Search Premier
  - This multi-disciplinary database has more than 13,750 indexed and abstracted journals. It provides full text for more than 4,000 journals, including full text for more than 3,700 peer-reviewed titles. PDF backfiles to 1975 or further are available for well over one hundred journals, and searchable cited reference is provided for more than 1,000 titles.
  - eBook Collection on EBSCOhost (WCSU)
  - Collection of over 20,000 eBooks in a variety of subjects.

- EBSCO Combined Databases
  - Search all EBSCO provided databases simultaneously.

- Education Research Complete
  - Education Research Complete covers the areas of curriculum instruction, administration, policy, funding, and related social issues. The database provides indexing and abstracts for over 2,000 journals, with full-text for over 1,000 journals, 500 eBooks, and numerous education-related conference papers. Topics covered include all levels of education from early childhood to higher education, and all educational specialties, such as multilingual education, health education, and testing.

- ERIC (Education Resources Information Center)
  - Educational Resources Information Center - definitive education database indexing articles and ERIC documents.

- JSTOR
  - Relate and comprehensive archive of important scholarly journal literature. Backfiles ONLY - no articles from within the last 5 years. ALL full-text.

Reference Materials - Dictionaries, Encyclopedias, Tests

- APA Handbook of Personality & Social Psychology (via PsycNET)
  - This resource summarizes current knowledge and advances in research and theory on attitudes and social cognition regarding human nature and tendencies, thought processes in judgment and behavior, and human experiences and motivations.

- DSM Library (Psychiatry Online)
  - The standard diagnostic tool used by mental health professionals worldwide to promote reliable research, accurate diagnosis, and, thus, appropriate treatment and patient care. Each psychiatric disorder with its corresponding diagnostic code is accompanied by a set of diagnostic criteria and descriptive details including associated features, prevalence, familial patterns, age-, culture-, and gender-specific features, and differential diagnosis.

- ETS (Educational Testing Services) Test Collection
  - Database of more than 25,000 tests and other measurement devices most of which were created by authors outside ETS. It makes information on standardized tests and research instruments available to researchers, graduate students and teachers. With information about tests from the early 1900s to the present, the Test Collection at ETS is the largest compilation in the world.

- Health and Psychosocial Instruments Database (HaPi)
  - Produced by Behavioral Measurement Database Services. HaPi is a comprehensive bibliographic database providing information about behavioral measurement instruments. Information in the database is abstracted from hundreds of leading journals covering health sciences and psychosocial sciences. Additionally, instruments from Education are included. HaPi Records provides information on questionnaires, interview schedules, vignettes/scenarios, coding schemes, rating and other scales, & more.

- Mental Measurements Yearbook / Tests in Print
  - Produced by the Buros Institute at the University of Nebraska, provides users with a comprehensive guide to over 2,000 contemporary testing instruments. Designed for an audience...

(also called article databases, index or index/abstract databases)

Getting the actual article

• Some databases
  • (a) provide the actual article “full-text” within the database
  • (b) link out to the article somewhere outside of the database
  • (c) do not provide the article (in which case one needs to use interlibrary loan ILL)
Databases
(also called article databases, index or index/abstract databases)

• Articles are **indexed** in databases **fields**.
  • Index of **words/subjects** in back of a book
  • Index of **authors** in back of a book
  • Index of **images** in back of a book
  • Subjects, authors, images are database **fields**

• **Generally, one searches using words or terms in fields:** abstract, title, keyword, topic, subject, and author are some possible **fields**.

The Value of Collaborative Research Before Independent Research in Undergraduate Music Education.

Authors: Haney, Kristi

Document Type: Article

Subject Terms:
- Education of music teachers
- Education of student teachers
- Research skills
- Music education
- Teacher education

Abstract: Increasing evidence points to the importance of undergraduate research in teacher education programs. Before undertaking independent research, it is essential that music education students gain exposure to a range of research skills and develop basic research competencies. In this study, I explored the influence of a semester-long collaborative research project on preservice music educators’ perceptions concerning future independent research projects. Throughout the semester, I collected data on nine preservice music educators’ perceptions of confidence, preparation, and enthusiasm concerning future research projects. [ABSTRACT FROM AUTHOR]
